

NGUYỄN VIỆT ANH

FRONTEND DEVELOPER

Frontend Developer with hands-on experience in **TypeScript, React, and Next.js**, specializing in **Server-Side Rendering (SSR)**, **Static Site Generation (SSG/ISR)**, and modern caching strategies to build high-performance web applications. Skilled in developing **responsive user interfaces**, integrating **REST APIs**, optimizing **SEO**, and implementing efficient data-fetching solutions such as **SWR** and **React Query**. Also passionate about expanding knowledge in **backend development** and **full-stack architecture**, with a strong interest in scalable software design and web performance optimization.

EDUCATION

Hanoi Architectural University

Information Technology (2021 - 2026)

GPA: 3.4/4

WORK EXPERIENCE

Hazo Media

Wordpress Developer (8/2024 - 1/2025)

- Developed responsive **e-commerce websites** and **landing pages** on the **WordPress** platform, ensuring compatibility across various screen sizes and devices.
- Customized website features, layouts, and interactive effects based on client requirements.
- Collaborated with QA/Testers to identify, troubleshoot, and resolve issues during development and deployment.
- Utilized **Figma** and **Adobe Photoshop** to design UI layouts, banners, and marketing assets according to client specifications.

Completed Projects:

- *Thuận Đức IVM*
- *NT-Tech*

APUS Digital Solutions JSC

Frontend Developer (2/2025 - Current)

- Participated in the development of a comprehensive **ERP system**, including modules such as **Quality Management System (QMS)**, **Manufacturing Management**, **Human Resource Management**, and **Product Management**, built on structured business workflows and process controls.

SKILL

- HTML, CSS, JavaScript, TypeScript
- Git, GitLab, Figma, Jira.
- WordPress
- NextJS, ReactJS, Tanstack Query, React Hook Form, Material UI, TailwindCSS, Axios
- Strong ability to work independently as well as collaborate effectively within cross-functional teams.
- AI-Assisted Development: Claude, GitHub Copilot, ChatGPT

LANGUAGES

Able to read and understand technical documentation in English for software development and problem-solving.

- Developed scalable and maintainable web applications using **Next.js** and **TypeScript**, leveraging **Server-Side Rendering (SSR)** to improve performance and SEO.
- Designed and implemented responsive **Admin Dashboard** interfaces following modern UI/UX principles.
- Built and maintained reusable UI components with **Material UI (MUI)** and developed complex, large-scale forms using **React Hook Form**.
- Integrated and managed **RESTful APIs** for CRUD operations and data synchronization across multiple modules, collaborating closely with backend developers to optimize API performance and data structures.
- Utilized **TanStack Query (React Query)** for data fetching, caching, error handling, and state management to enhance user experience.
- Implemented **internationalization (i18n)** in Next.js to support multilingual content and locale-based routing throughout the ERP platform.
